

Congratulations

Lost-Time Incident Free for 20 Million Work Hours

PCS and its contractors have achieved a combined 20 million hours worked without Lost Time Injury on 22 November 2011.

Safety, along with protection of health and the environment is a priority in everything we do and this milestone represents the dedication and diligence that our employees and contractors have displayed in maintaining a safe work environment.

I strongly believe that this achievement is the result of a work culture based on hard work and commitment to teamwork, personal ownership of systems and facilities, strong management support and continuous improvement effort.

With the right attitude, and our uncompromising approach towards safety, I am confident that we can continue to enhance our safety activities to sustain our safety performance.

Thank you for making PCS a safer and healthier workplace.

Akira Yonemura
